

# GILLETTE PROGRAM REPORT

## CERTIFIED NURSING ASSISTANT (CNA)

FEBRUARY–APRIL 2018

# Climb

W Y O M I N G

### LASTING BONDS

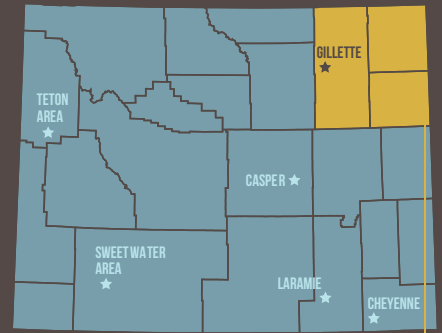

“Being a single mother can feel very isolating, so these women came to Climb really wanting to connect with other moms. It meant a lot to them to go through this experience together.

Healthcare is the perfect career path for them, and our community benefits as they fill critical positions. They have such a passion for caring and know that’s what they’re supposed to do with their lives.”

— Stacie McDonald, Gillette Program Director

**“Climb gave me a sense of pride in myself and began so many new relationships that will last a lifetime. It also gave me a lifetime career to support my family, and for that I will be forever grateful.”**

— Della, Program Participant

**12 MOMS & 25 CHILDREN**  
served in the program

#### TRAINING DESCRIPTION:

In response to the community’s need to fill in-demand healthcare positions, this training included classroom modules with hands-on clinicals through Gillette College to prepare for CNA testing and certification.
